

VES & Hochiki Suppression TRAINING WORKSHOPS

VES & Hochiki America has developed one of the most comprehensive and complete training programs in the industry. As either or both a Hochiki America Suppression Dealer or a VES Authorized Fire Detection Systems Dealer, you and your staff have access to this training program yourselves. Your installers and field technicians will benefit greatly from attending our comprehensive training workshops.

Our staff has designed training that meets the needs of your staff and, unlike other manufacturers we offer this training to you at little or no expense.

Technical Training:

Technical training consists of a series of structured, hands-on software and hardware-related components at VES' King of Prussia headquarters. Our Technical Training Workshop is designed to give your technicians and system designers an in-depth overview of how to design, layout, install, program and service the subject line of products. Those who successfully complete attendance at our King of Prussia headquarters are issued personalized, numbered certifications, essential for future technical assistance from the Hochiki America and VES Tech Support staff.

Workshop hours will be 8:30 a.m.-5 p.m. each day. If traveling by air- all attendees should arrive at Philadelphia International Airport the evening before and schedule departing flights no earlier than 9pm on last day.

Each workshop will hold a maximum of 8 participants.

If not already submitted, please complete the attached registration form and email to:

sbailey@hochiki.com

VES/Hochiki Provided Workshop Manual Materials:

The following material will be provided for all workshop participants:

- Condensed Aerosol Manual(s)
- Suppression Panels Manual(s)
- USB Flash Drive with Product Guides, Calculators, and Manuals

Your Laptops are required:

The goal of our workshops is to provide hands-on training for every attendee. We require that participants bring a **Windows** based laptop that has a USB port.

Note: Travel Arrangements should not be made before 9PM of last evening. Class may run longer than 4PM. You should also leave extra time for potential traffic and airport conditions.

FirePro Xtinguish Training Registration & LE2 Credentials Form

Date _____

Name _____

Company Name _____

Address _____

City _____ State _____ ZIP _____

Phone Number () _____ FAX Number () _____

E-Mail Address _____

Upon successful completion of this training course (final score of 70% or higher), you will be awarded a FirePro Xtinguish certificate. Your certification as a Hochiki America Corporation FirePro Xtinguish trained technician will be effective for two years from the date of this class, and will be noted on your certificate. Please note that your certification will expire immediately should you no longer be employed by the above authorized Hochiki America dealer. At the end of two years, FirePro Xtinguish certification may be renewed at Hochiki America Corporation's discretion, or by completion of a re-certification course.

Only individuals trained and certified by Hochiki America Corporation are authorized to install and/or perform work on FirePro Xtinguish systems and such authorization can only be issued, revoked or renewed by Hochiki America Corporation. If you are currently not an employee of Hochiki America Corporation, or a registered dealer or distributor you are not authorized to attend this course or use any of its training materials. The failure to maintain current certification, or to follow factory guidelines for installation, programming, repair, service or maintenance of Hochiki America fire alarm products are grounds for revocation of your certification.

I also understand that intellectual property of Hochiki America as well as its products will be discussed in this training class, and in consideration of accepting this training, I agree to keep such information including training manuals, computer programs, access codes, price lists, technical bulletins, et al discussed or distributed by Hochiki America Corporation confidential. I also, agree to hold, harmless and indemnify, Hochiki America Corporation for any failure on my part to properly execute such training as I have received.
